

## Let's Study and Understand the Meaning of The Preamble to The Constitution of the United States of America

**Preamble:** The introduction to the Constitution of the United States of America.

**We the People of the United States:** All the people in our country, including kids.

**In Order to form a more perfect Union:** To come together and make things better for everyone who lives in our country.

**Establish Justice:** To make rules that help everyone get along with each other.

**Insure domestic Tranquility:** To make sure we can live safely in our homes and communities.

**Provide for the common defense:** To protect us from people or other countries who might try to harm us, as in war.

**Promote the general Welfare:** To help make life good for everyone.

**And secure the Blessings of Liberty:** To protect our rights and freedoms and not let anyone take them away. Some rights and freedoms are being able to choose our religion, speak our thoughts respectfully, and to get together with friends and family.

**To Ourselves and our Posterity:** For both kids and grown-ups and those who are born after us.

**Do ordain and establish this Constitution:** To write down this list of rules and promises for us and our government to keep and practice.

**For the United States of America:** Our country, where we live.

These are big ideas. Think about what these ideas mean and learn more about them every day.

I have read this Preamble.
