Honor Suffragettes Who Won the Vote

Women's successes for years have been far between.
Second class citizens, they weren't respected.
Miracle took place in 1919.
The right for women to vote was accepted.

Before that took place women had no say.
Men were in charge. That was expected.
The 19th Amendment at last came our way.
Women's secondary state was rejected.

All women Unite and Rise and Shine Your Light,
Giving thanks to those who took a stand and fought!
They deserve much recognition for this right.
Equality with men, our next goal is sought.
