DAR Constitution Hall links our past to our present, and is vital to our future. More than half a million people attend events every year at Constitution Hall. But it is not only a special space for Daughters, it is also an important place to our nation, serving as host to many significant events in our country's history and standing strong as a reminder of the importance of our U.S. Constitution.

We are privileged to take on the joyful obligation to ensure that this national historic landmark continues to be a place where patriots, presidents, patrons and pages can celebrate what it means to be an American.

A Complete Restoration
Phase I of the Constitution Hall renovation focused primarily on the lobby, including the ornamental finishes. Phase II addressed the stage and recreated the John Russell Pope-designed colonial backgrounds. Now, Phase III will look out from center stage to focus on everything from the seats to the ceilings and beyond. We must work behind the scenes to ensure that we have safe, state-of-the-art, modern mechanicals, which are the backbone of operating large performances and help provide the visitor experience expected by 21st century audiences.

After decades of use, changing visitor expectations and upgraded safety standards, the time has come for us to complete our restoration of the Hall.

Our Largest Project Yet
This final phase of restoration will cost $9 million, and will transform Constitution Hall into an epicenter of culture and thought here in Washington, D.C., for decades to come.

We share an obligation to the bold, dynamic women who not only founded our Society but also built our complex of buildings and provided for their future. These founders, like the DAR leaders who came after them, were smart and determined.

Daughters just like me and you, prepared the way by establishing and investing funds that will provide — without impacting the principal — $4.5 million to kick-start this critical restoration.

Raising the remaining $4.5 million will still be ambitious. But by completing the final phase by 2022, we will afford future administrations the ability to support significant gifts to the nation in celebration of the 250th anniversary of our United States. That public participation can only occur if we take care of our own obligations first and address these needs now. We invite you to join us in this historic campaign.

"I have every confidence that we will, together, rise and shine our very best efforts on successfully completing the restoration of DAR Constitution Hall."
