

**JAC VALUES**

As a Junior American Citizen I will:

Show Courtesy and Respect for others;

Be a Team Player - in my family and home, at school, and in my community;

Take care of myself by making healthy choices in the food I eat and by getting exercise;

Learn about American History and the fundamental principles upon which our nation was founded;

Respect the Flag of the United States of America;

Promote Patriotism;

Listen to the ideas of others and learn to express my own ideas, realizing that sometimes we won't agree, but I will look for common ground;

Find an occupation that is best for me, and learn to do it honestly and well;

Do my best to make the right choices and strengthen my character;

When I am old enough to vote, exercise that right and privilege by being informed of the issues and carefully choosing leaders who will represent "we the people" and our American principles;

America depends upon her citizens; every day I will strive to be a Good Junior American Citizen.
